Mondays

First Chugim: 4-4:45 PM

Toyology: Science through Toys

We are excited to continue building and tinkering with our returning students and to welcome new Toyologists to our class! We are hands on with science in these engineering, and physics based classes as each student constructs and decorates a new toy each week. Each student will build and take home their own creation. Students will test their toys in class and at home to illustrate concepts such as wiring and circuits, gravity, energy, friction, motion, sound, inertia, and multiple types of electricity. Toys this session will include our Motorized Rotating Robot, Wind Powered Pulley, Static Charged Spaceship, and Solar Powered Merry-Go-Round.

Instructor: Sarah's Science Enrichment

Mondays: 4-4:45 PM

Course Fee: \$218.75 (Price reflective of 7 classes)

The Coder School Berkeley - Coding Frenzy; Introduction to Programming Using Scratch

Your aspiring coder will learn to create animated stories and games while learning important fundamental programming concepts. Scratch is a drag and drop platform that allows young programmers to play with sprites and blocks while setting a foundation for logical thinking - an essential skill that contributes to success in school, sports, and generally in today's tech-driven world. Students will have the chance to let their imagination run wild as they get a taste of the endless possibilities of programming. Each student will be provided with a Scratch account so that they can continue working on their projects after class and show you all the great work they've done at home.

The chugim will take place off-site at The Coder School (2093 Rose Street). The children will walk there and back with Alex

Mondays First & Second Chugim: 4-5:30 PM (2nd – 3rd Grade) ***Double Chugim***

Hanabi Judo

Hajime! (Begin!) establishes a strong base of judo technique, culture, and character. Fun tumbling, jumping and running activities warm us up before we practice our ukemi or falling techniques: Hajime students learn to fall safely, effortlessly and without discomfort.

Judo allows a smaller person to control an opponent bigger and stronger than themselves. We learn to hold a person down with “kesa-gatame” (scarf hold) and we practice throws – where our opponent can be flipped upside down – on Sensei.

Every class finishes with games that develop physical coordination, balance and laughter. We sing in Japanese about inspiration and bow to each other respectfully. Then we say "arigotoh," thank you. Respect and discipline are as much a part of Hanabi as laughter.

Price includes a \$70 fee for a Judo uniform; let us know if you already have a uniform and we will prorate the class.

Instructor: Hanabi Judo
Mondays First Chugim: 4-4:45 PM
Course Fee: \$175 (Price reflective of 7 classes)
*The price of uniform will be paid directly to Hanabi Judo

Fitness in Transit: Acronastics, Gymnastics, and Tumbling

Fitness in Transit will be offering a session filled with 3 exciting art forms: acronastics/acrobalancing, tumbling, and gymnastics. Acrobalancing is an art form that combines elements of yoga, circus arts, and hand balancing. Our focus will be on safe partner lifts involving a base and a flyer. This class will teach children the basics of being a base and a flyer, and basic poses. In our tumbling segment, we will be working on tumbling passes and inverted work, as well as acrobatic sequences which will develop strength, flexibility, and loads of fun. During the weeks of our gymnastics exploration, we will be focusing on apparatus and equipment, such as balance beam, bars, wedge mats, and much, much more. Our professional instructors will create a safe, fun, and exciting environment to help children learn how to develop exciting skills and work together as a team.
